

**Migration: Gauge value update failed**

<b>Problem Summary</b>	After the migration, when you launch a view the system displays an error message.
<b>Error Message</b>	Gauge value update failed. The footer value is null or not a number.
<b>Possible Cause</b>	The CUIS 7.x report field to which the gauge view is applied does not have a footer formula set.
<b>Recommended Action</b>	Set the footer formula in the CUIC 8.x system using the <b>Report definition field properties</b> screen.
<b>Release</b>	Release 8.0(x)
<b>Associated CDETS #</b>	None
