

Migration: Value list values are blank

Problem Summary	After performing the migration, the migrated value list values are blank.
Error Message	None
Possible Cause	The value list or the query is incorrect.
Recommended Action	If the value list values are blank, try editing the value list and validating the query. If value list query is valid, check the data source and ensure that the query can execute fine on the corresponding data source.
Release	Release 8.0(x)
Associated CDETS #	None
