Performance Routing Feature Names

If you are looking in [Cisco Feature Navigator \(FN\)](#) for all the feature names in for Performance Routing (PfR), there are three keywords you should look for and those are "**OER**", "**PfR**", and "**Performance Routing**".

Here is the list of PfR feature names as of July, 2012:

FN Keyword	Full Feature Name Syntax
OER	OER - API
OER	OER - Application Aware Routing with Static Application
OER	OER - Inbound Optimization thru BGP
OER	OER - Voice Traffic Optimization
OER	OER Border Router Only Functionality
OER	OER Port and Protocol Based Prefix Learning
OER	OER Support for Cost Based Optimization and Traceroute Reporting
OER	OER Support for Policy-Rules Configuration and Port-Based Prefix Learning
OER	OER VPN IPsec/GRE Tunnel Optimization
Performance Routing	Performance Routing - Application Interface
Performance Routing	Performance Routing - Link Groups
Performance Routing	Performance Routing with NBAR/CCE Application Recognition
PfR	PfR - Protocol Independent Route Optimization (PIRO)
PfR	PfR EIGRP mGRE DMVPN Hub-and-Spoke support
PfR	PfR RSVP Control
PfR	PfR Data Export v1.0 NetFlow v9 Format
PfR	PfR SNMP MIB v1.0 (Read Only)
PfR	PfR Target Discovery v1.0
PfR	PfR BR Automatic Adjacencies
PfR	PfR BR Auto Neighbors
PfR	PfR SNMP Traps v1.0
