

**<If purging does not release the database used space>**

<b>Problem Summary</b>	Sometimes even after purging ,the database used space may not get reduced.Even if the database has one month worth of data, the used space can be very high....
<b>Error Message</b>	The Db used space is very high...
<b>Possible Cause</b>	configlog table in db_cra database is consuming lots of space.This is a table used for stored procedure logging.....
<b>Recommended Action</b>	delete the records in the configlog table using the query "delete from configlog" ...
<b>Release</b>	UCCX 5.x and 7.x...
<b>Associated CDETS #</b>	The DDTS/CDETS should be visible on Bug Tool Kit. If it not visible, state "None." <b>Do not list internal bugs in this field.</b>
