Removing temporary, demo or invalid license files

Problem Summary	Removing temporary, demo or invalid license files.
Error Message	During Appadmin login, system will complain about license expire in X days though the system has permanent license and the License MAC is still unchanged (The CLI **show status** command displays the current license).
Possible Cause	Temporary/demo/invalid license.
Recommended Action	Contact Cisco TAC to remove the temporary, demo or invalid license files using CET.
Release	Release 8.x
Associated CDETS #	CSCto77823
