

## Report Definitions: Changing Display Name does not Change Display Name in the Report View

<b>Problem Summary</b>	In a custom Report Definition, you change the Display Name for a report field in the Report Definition, but the name change does not appear in the Display Name column for the existing Report View based on that Report Definition.
<b>Error Message</b>	None. This is not an error. It is expected behavior.
<b>Possible Cause</b>	A pre-existing View cannot be modified in the Report Definition.
<b>Recommended Action</b>	<ul style="list-style-type: none"> <li>• You can edit the Display Name directly, in the Grid Editor.</li> <li>• You can create a new view.</li> </ul>
<b>Release</b>	Release 8.0(1)
<b>Associated CDETS #</b>	None
