

Reporting: Effect of IIS Recycle on Reports

Problem Summary	Internet Information Server (IIS) recycles unexpectedly.
Error Message	None
Possible Cause	The system memory exceeded threshold.
Recommended Action	When IIS recycles, if any report is open, you see this message: "The realtime subsystem has been cleared. You have to refresh the page". If the report is in a dashboard, the data is refreshed during the next refresh cycle.
Release	Release 7.5.3
Associated CDETS #	None
