

Reporting: Error while rendering reports

Problem Summary	While running or Viewing a Report after selecting the appropriate values and timeframe, the system displays an error message and stops rendering the report
Error Message	There was an error rendering the report, please check the report
Possible Cause	The locale settings for the UnifiedIC server, UnifiedIC DB, UnifiedICM/CCE Admin Workstation and AWDB are not the same.
Recommended Action	Ensure that the locale settings for the UnifiedIC server, UnifiedIC DB, UnifiedICM/CCE Admin Workstation and AWDB are set to the same value. To see the locale settings on any of these servers, navigate to Control Panel > Regional and Language Options. The Standards and Formats value in the Regional Settings tab specifies the locale for that server.
Release	Release 7.5(x)
Associated CDETS #	CSCth35833
