

Restore operation fails due to mismatch in deployment type

Problem Summary	The deployment type in CRS 5.0(x) or Unified CCX 7.0(x) does not match with that selected during installation of Unified CCX 8.0(1).
Error Message	Deployment type in backup does not match with that of the node.
Possible Cause	Previous release of Unified CCX was pointing to CUCM while during installation of 8.0(1) user selected the option of CME or the other way round.
Recommended Action	Reinstall the node again selecting the deployment type matching with that of the previous release; and then run restore process from beginning.
Release	Release 8.0(1)
Associated CDETS #	None.
