## **RmCm remains in Initializing state**

Problem Summary	The RmCm subsystem remains in the Initializing state after the Cisco Unified CCX Engine starts.
Error Message	None.
<b>Possible Cause</b>	The RmCm subsystem is unable to read any configuration information.
	Make sure there is at least one "Cisco Unified CCX SQL Server - Config" service running in the cluster. If the service is stopped, start it.
Release	Release 7.0(1)
Associated CDETS #	None.
