

MediaSense server is unable to keep up with incoming recordings

Problem Summary	Open RTSP session to MediaSense failed with timeout.
Error Message	Timeout on TCP socket.
Possible Cause	The total number of media streams (recording, playback and live monitoring) exceeds 340 streams.
Recommended Action	Verify that total number of media streams (recording, playback and live monitoring) is less than 340. Decrease the total number of media streams if necessary.
Release	Release 8.5(1), Release 8.5(2), and Release 8.5(3).
Associated CDETS #	CSCto60804.
