

Schedules: \_A\_scheduled\_job\_is\_unable\_to\_process\_at\_the\_scheduled\_time

## **Schedules: A scheduled job is unable to process at the scheduled time**

<b>Problem Summary</b>	A scheduled report cannot occur at the scheduled time.
<b>Error Message</b>	None
<b>Possible Cause</b>	This can occur if: <ul style="list-style-type: none"><li>• The schedule was created after the first scheduled date/time.</li><li>• The scheduler service or the node was shut down at the appointed time.</li><li>• There were no available threads for executing the job.</li></ul>
<b>Recommended Action</b>	No action is required on your part.Schedules persist in the database. The scheduler will run them when it starts up again.
<b>Release</b>	Release 8.0
<b>Associated CDETS #</b>	None
