

SocialMiner APIs - Duplicate fields in Payload

Problem Summary	The API payload contains duplicate fields, and only one is used.
Error Message	None
Possible Cause	SocialMiner is working as expected. If you send an API request payload with multiple, identical fields, only the first field is processed. The other duplicate fields are ignored.
Recommended Action	Review the API request payload to ensure it contains no duplicate fields.
Release	Release 9.0(x), 10.0(1), 10.5(1), 10.6(1)
Associated CDETS #	None
