

**SocialMiner APIs - Duplicate fields in Payload**

<b>Problem Summary</b>	The API payload contains duplicate fields, and only one is used.
<b>Error Message</b>	None
<b>Possible Cause</b>	SocialMiner is working as expected. If you send an API request payload with multiple, identical fields, only the first field is processed. The other duplicate fields are ignored.
<b>Recommended Action</b>	Review the API request payload to ensure it contains no duplicate fields.
<b>Release</b>	Release 9.0(x), 10.0(1), 10.5(1), 10.6(1)
<b>Associated CDETS #</b>	None
