

SocialMiner Feeds - Error on Twitter Authorization

Problem Summary	You authorize a Twitter feed with incorrect credentials and see an error from Twitter. You try the authorization again with the correct credentials and see an error from SocialMiner.
Error Message	Typical errors are Wrong UserName or Wrong Password.
Possible Cause	Twitter presents an error message on your first attempt to log in with incorrect credentials. SocialMiner does not process the Twitter error correctly and gives an error on your second attempt. SocialMiner then clears the error after your second attempt.
Recommended Action	Try the authorization a third time.
Release	Release 8.5(4)
