

SocialMiner Feeds - Invalid Feeds

Problem Summary	You are aware of RSS version issue or invalid feeds.
Error Message	The version of RSS is unsupported.
Possible Cause	The feed is not one of the supported Feed Types.
Recommended Action	Verify that the feed is one of the supported types. You can verify the RSS feed using a feed validator such as the W3C Feed Validation Service If the site is not providing a valid Feed or is providing a version of RSS that is not supported by SocialMiner, you may be able to use a service such as Feed Burner to read the invalid feed and publish a reformatted/supported feed. Another feed manipulation service you may try is Yahoo Pipes .
Release	Release 9.0(x), 10.0(1), 10.5(1), 10.6(1)
Associated CDETS #	None
