

**SocialMiner Feeds - Network Issues**

<b>Problem Summary</b>	Your feed renders in the browser but does not work in SocialMiner.
<b>Error Message</b>	Various
<b>Possible Cause</b>	It is possible that you have a network topology issue. For example, if your SocialMiner system is outside the corporate firewall, it may not be able to access a intranet site even though the site renders in your browser.
<b>Recommended Action</b>	See design guidance, deployment models in the SocialMiner User Guide.
<b>Release</b>	Release 9.0(x), 10.0(1), 10.5(1), 10.6(1)
<b>Associated CETS #</b>	None
