

## Some of the historical reports take too long to generate

<b>Problem Summary</b>	Some of the historical reports take too long to generate even if we run the query directly on server
<b>Error Message</b>	
<b>Possible Cause</b>	Database statistics have not been updated for long or indexing of tables is not proper
<b>Recommended Action</b>	<p>Execute the following query on both the nodes to update statistics for all tables</p> <pre>Use db_cra GO exec sp_updatestats GO</pre> <p>If this did not resolve the issue, try reindexing the tables using the following script</p> <pre>USE db_cra GO EXEC sp_MSforeachtable @command1="print '?' DBCC DBREINDEX ('?', ' ', 80)" GO EXEC sp_updatestats GO</pre>
