

Some of the historical reports take too long to generate

Problem Summary	Some of the historical reports take too long to generate even if we run the query directly on server
Error Message	
Possible Cause	Database statistics have not been updated for long or indexing of tables is not proper
Recommended Action	<p>Execute the following query on both the nodes to update statistics for all tables</p> <pre>Use db_cra GO exec sp_updatestats GO</pre> <p>If this did not resolve the issue, try reindexing the tables using the following script</p> <pre>USE db_cra GO EXEC sp_MSforeachtable @command1="print '?' DBCC DBREINDEX ('?', ' ', 80)" GO EXEC sp_updatestats GO</pre>
