

Support Tools Installs Disabled

Problem Summary	Support Tools installs but the Support Tools service is disabled.
Error Message	None.
Possible Cause	This can occur following a re-install of the product, or during bundled installs of the Node ifan IPsec shared key is not specified.
Recommended Action	Manually start the Cisco Support Tools service and, if desired, set its startup type to Automatic.
Release	Release 7.5(1) and 8.0
Associated CDETS #	None.
