

Switch Version Fails on Pub Even After the Upgrade is Successful

Problem Summary	The user gets a failure message while running switch version on node 1.
Error Message	?Switch version can not be performed as upgrade on node 2 (Subscriber) is either incomplete or not started at all? or ?Cluster Manager Service is either down or clustering is not proper on Publisher.?
Possible Cause	<ul style="list-style-type: none"> • Cluster manager service is not running on both nodes. • Refresh Upgrade is not complete on node 2.
Recommended Action	<ul style="list-style-type: none"> • Upgrade should be first initiated on node 2. Switch version should be tried only after successfully completing upgrade on node 1. <p> Note:</p> <ul style="list-style-type: none"> • After completing switch version on node 1, the user should perform switch version on node 2. • Restarting the system manually after switch failure is mandatory. • There is no option to initiate upgrade and continue running 9.0(1) immediately after upgrade is done.
Release	Release 9.0(1)
