

**System: Release Notes for Maintenance Releases**

<b>Problem Summary</b>	How do I obtain release notes for Cisco Unified Intelligence Suite maintenance releases?
<b>Error Message</b>	None
<b>Possible Cause</b>	You are unable to locate the maintenance release (MR) Release Notes. The documentation site on Cisco.com stores release notes for major releases only.
<b>Recommended Action</b>	<ul style="list-style-type: none"> <li>• Go to Cisco.com.</li> <li>• Select Support &gt; Download Software.</li> <li>• Click Voice and Unified Communications.</li> <li>• Log in.</li> <li>• Click the Customer Contact folder to expand it.</li> <li>• Click Cisco Unified Contact Center Products folder to expand it.</li> <li>• Click Cisco Unified Intelligence Suite. This opens a tree of all releases.</li> <li>• Click the folder for the release you need - for example, click 7.5 (2) to open the page for that MR.</li> <li>• Locate the small page icon at the top of the right panel (above Sort By:)</li> <li>• Select that page icon to open the release notes.</li> </ul>
<b>Release</b>	Release 7.5(x)
<b>Associated CDETS #</b>	None
