

What an unbelievable regress into prehistoric!!!

Why the hell it is not possible to get the old stile PDF Files for all the documentation here ?

This is only time consuming and not helping the very busy system admins!

To print a PDF

If you want a PDF then you need to go to

http://docwiki.cisco.com/wiki/Cisco_Unified_MeetingPlace%2C_Release_7.0 -- DocWiki Print Page and print a PDF of all the MeetingPlace docs.
