

## Talk:OVA\_Template\_Details\_for\_Unity\_Connection\_Release\_8.6.2

I have a question regarding the information on the docwiki page:

?OVA Template Details for Unity Connection Release 8.6.2?

[http://docwiki.cisco.com/w/index.php?title=OVA\\_Template\\_Details\\_for\\_Unity\\_Connection\\_Release\\_8.6.2&oldid=48676](http://docwiki.cisco.com/w/index.php?title=OVA_Template_Details_for_Unity_Connection_Release_8.6.2&oldid=48676)

My question is regarding the ?1000 users? template, which says ?For use on CUCM-BE 6000.? Does this exclude the UCM C220 M3 TRC#2?

It does not make sense that the minimum Unity Connection for the C220 would be a 5,000 user config.
