

## Talk:OpenStack:Grizzly-Multinode

debug: Failed to load library 'rubygems' for feature 'rubygems' debug: Failed to load library 'selinux' for feature 'selinux' debug: Failed to load library 'ldap' for feature 'ldap'

so those 2 missing from any fresh ubuntu 12.04 even after update/upgrade ...

the nameresolution fails, node resolution fails ....we need to specific site.pp file that works ...
