

Talk:Unified_Communications_Virtualization_Downloads_(including_OVA/OVF_Templates)

Unified Attendant Consoles Starting with version 8.6(1) an OVA template is now available for CUxAC 8.6(1).

The link to this OVA download can be found in the software download section Products > Voice and Unified Communications > Unified Communications Applications > Telephony Applications > Cisco Unified Attendant Consoles The file name is "CUxAC_8.6_25_OPS_v1.0_vmv7.ova"

Also - the CUxAC requirements should be updated to reflect 4GB RAM during Guest VM creation.
