

The Cisco Unified CCX Admin Utility will not run on a non bootstrap node

Problem Summary	The Cisco Unified CCX Admin Utility will not run on a non bootstrap node.
Error Message	Local system is not a Bootstrap Server Node. Please run Cisco Unified CCX Admin Utility on a Bootstrap Server Node.
Possible Cause	An attempt was made to run the Cisco Unified CCX Admin Utility on a non bootstrap server node. On Cisco Unified CCX 7.0(1) 2-node systems, both nodes are bootstrap servers. A non bootstrap server will be a DB node or a VoIP node.
Recommended Action	You must run the Cisco Unified CCX Admin Utility on a bootstrap server node. Only the bootstrap server has the required bootstrap data storage installed.
Release	Release 7.0(1)
Associated CDETS #	None.
