Do I need to apply hotfixes to my release before upgrading?

Do I need to apply hotfixes to my release before upgrading?

Resolution

No. All the hotfixes have been rolled in to higher releases.

Where do I find the Upgrade Guides for different versions on CUAE?

Where do I find the Upgrade Guides for different versions on CUAE?

Resolution

See [here](#).

Will there be any impact on CUAE server after upgrading the MySQL

I want to upgrade MySQL to a different version from the one currently installed with the CUAE. Will there be any impact on the CUAE server due to this upgrade?

Resolution

For production CUAE, we do not recommend changing the core components. Please see the software prerequisites page on the CUAE Developer Forums Wiki for a complete list of versions supported for all of CUAE's component softwares.
