General Troubleshooting

- [General Troubleshooting: Java Garbage Collection Paging Spikes on the CVP Server](#)
- [General Troubleshooting: Intermittent Timeout Issues](#)
- [General Troubleshooting: Windows OS Application Log Fills up](#)
- [General Troubleshooting: Error When Adding a Dial-Peer](#)
- [General Troubleshooting: "Java is Not a Recognized Program" Error](#)
- [General Troubleshooting: "Password Does Not Meet the Operating System Security Requirements" Error](#)
- [General Troubleshooting: Password Lost or Forgotten](#)
- [General Troubleshooting: Procedure to Change the IP Address of Unified CVP Call Server](#)
- [General Troubleshooting: Server IP Address Has Been Changed](#)

- [General Troubleshooting: Unable to Open Command Prompt Window or Other Applications](#)
- [General Troubleshooting: When Hyperthreading Is Enabled, Unified CVP Performance Is Degraded](#)
- [General Troubleshooting: Users Cannot Login](#)
- [General Troubleshooting: Errors Reported by Various Unified CVP Components](#)
- [General Troubleshooting: Other Areas to Check](#)
- [Unified CVP Error Message is not Heard When IP Originated Call Encounters Error](#)
- [Graceful shutdown does not work when Call Server is in partial service](#)
- [General Troubleshooting: CVP Processes is not reachable](#)

Call Server

- [Call Server: Device Becomes Corrupted](#)
- [Call Server: SSL Recovery](#)
- [Call Server: Resource Manager Service Fails to Start](#)
- [Call Server: Call Server Is Not Reachable](#)
- [Call Server: Call Server Cannot Communicate with Co-located Reporting Server](#)
- [Call Server: Call Server or VoiceXML Service Cannot Be Restarted](#)
- [Call Server: Connection with PIM Dropped, Call Server Going Out of Service](#)
- [Call Server: H.323 Service Cannot Access Call Server](#)
- [Call Server: Resetting System Clock Stops IVR Service Requests](#)
- [Call Server: IVR Service CALL RESULT Returns Error Code Other than 0](#)
- [Call Server: Call Server Is Unreachable](#)
- [Call Server: Received ERROR SCRIPT NAME = 6 on IVR Service](#)
- [Call Server: Invalid Path or File Name](#)
- [Call Server: ?Dialogue Failure Event? Error in the Call Server Log Files](#)
- [Call Server: Call Server ?Variable Data Is Invalid? Error](#)
- [Call Server: Unable Add IOS Device Because Device Is Already Managed](#)
- [Call Server: VRU Application Error in Call Server Log](#)
- [Call Server: ECC Variable Contents Truncated after Passing through Call Server](#)
- [Call Server: "Have You Configured Your Call Server?" Error](#)
- [Call Server: Erratic Behavior When Everything Is Configured Properly](#)
- [Call Server: IVR Subsystem Goes into Disabled State When Call Server Service Starts](#)
- [Call Server: IVR Subsystem Returns a 500 Rejection on VXML Fetch from Gateway](#)
- [Call Server: Full Video Call Disconnected When Routed Through IVP](#)
- [Call Server: SIP Code 488 or 603 Returned on Full Video Call Rejection](#)
- [Call Server: Full Video Warm Transfer with Queuing Not Working](#)
- [Call Server: CVP Warm Transfer With Queuing Get Disconnected](#)
- [Call Server: Hold Movie not Visible to Caller on Hold](#)
- [Call Server: Full Video Calls Drop upon Dialing the DNIS](#)
- [Call Server: Undecipherable Message Is Displayed When the VMS Subsystem Is Down](#)
- [Call Server: Connection between Unified CVP and IVP cannot be established when setting up TLS](#)
- [Call Server: Only One Call Server Is Receiving Calls](#)
- [Call Server: Calls Are Disconnecting](#)
- [Call Server: Non-English Video Text Overlay is Garbled in Full Video](#)
- [Call Server: Movie Media of Video Micro-Application Cannot be Interrupted](#)
- [Call Server: Media Poller timing issues](#)
- [Call Server: Invalid Thumbnail Images on VMS Server](#)
- [Call Server: CALL Server Cannot Connect to IVP Server](#)
- [Call Server: VMS Administrator Replaces Video Content While Agent is Previewing](#)
- [Call Server: VMS Administrator Replaces Video Content While Agent is Pushing Initial Video to Caller](#)
- [Call Server: Unable to Process Playback Request](#)

- Unified CVP: Call Server - Multiple valid licenses are chosen at random

VXML Server

- VXML Server: Change the Fixed Path to Relative path for Courtesy Callback and Agent Greeting Applications
- VXML Server: Ended Session Request Error
- VXML Server: Ending Session Request Error
- VXML Server: Session Does Not Contain Call Information
- VXML Server: Rapid Multiple Sequential Applications Warning
- VXML Server: Session Loss During a Call Error
- VXML Server: Session Ending within an Element Error
- VXML Server: Empty Error Message
- VXML Server: VXML Server Displays Information of an Old Version
- VXML Server: VXML Server Console Displays No Information
- VXML Server: VXML Server Sample Application Displays Page Not Found
- VXML Server: VXML Server Sample Application Displays Technical Difficulties
- VXML Server: Excessive Unavailable ASR Errors in VXML Server Log
- VXML Server: VXML Server Loggers Not Functioning
- VXML Server: VXML Server Is Unreachable
- VXML Server: VXML Server Does Not Start After Patch
- VXML Server: VXML Server Fails After CVP 7.0 Upgrade
- VXML Server: VoiceXML Scripts Fail
- VXML Server: Call Start Element Deleted From VXML Server
- VXML Server: VoiceXML Application Fails to Access Another Resource
- VXML Server: Error 500: Error Initializing Velocity
- VXML Server: Keytool Error: Failed to Establish Chain from Reply
- VXML Server: VXML Server Statistics Not Available Error Message
- VXML Server: VXML browser cannot stop the execution of the VXML node, when audio file from the previous audio node is missing
- Unified CVP: VXML Server - Error event, error.badfetch, is not thrown when an audio file cannot be played
- Unified CVP: VXML Server error message about java not being a recognized command when running deployApp.bat
- Unified CVP: VXML Server - Resolving badfetch Errors
- Unified CVP: VXML Server - System.out.println() is no longer getting printed to Tomcat stdout log

Reporting Server

- Reporting Server: The Reporting Server stops responding intermittently during re-installation
- Unified CVP: Reporting Server Logging Causes Performance Issues
- Reporting: Agent-initiated calls that result in Prompt Play
- Reporting Server: Cannot Initialize the JDBC Connection
- Reporting Server: CVP Error Log
- Reporting Server: Errors During Reporting Server Database Purge
- Reporting Server: Failure to Receive Messages from the Message Bus
- Reporting Server: No Informix Services Found on Reporting Server
- Reporting Server: Purge Cannot Run
- Reporting Server: Queries Timing Out Under Load
- Reporting Server: Reporting Server Association Error
- Reporting Server: Reporting Server Cannot Connect to Database
- Reporting Server: Reporting Server Cannot Initialize JDBC Connection

- [Reporting Server: Reporting Server Goes into Partial Service Mode](#)
- [Reporting Server: Reporting Server Is Unreachable](#)
- [Reporting Server: Reporting Server Not Receiving Messages From Message Bus](#)
- [Reporting Server: Reports Are Slow](#)
- [Reporting Server: Starting Informix Database Causes Client Locale Not Set Error](#)
- [Reporting Server: What are the Informix Error Codes?](#)
- [Reporting Server: Goes to Partial Service Mode](#)
- [Unified CVP: Reporting - Agent-initiated calls that result in Prompt Play](#)
- [Unified CVP: Reporting Server Installation and Purge](#)

Audio

- [Audio: Incoming Audio-Only Calls to IVP Are Not Rejected](#)
- [Audio: Caller Hears Nothing but No Errors Logged](#)
- [Audio: Caller Does Not Hear Prompt or Expected Event Does Not Occur](#)
- [Audio: No Audio After Consult Transfer](#)
- [Audio: One-Way Audio on Voice Gateway](#)
- [Audio: GetSpeech Micro-Application With Datatype "Currency" Does Not Work with Negative Currencies](#)
- [Audio: A Prompt File From Media Server Did Not Run](#)
- [Audio: Long Pauses between Prompts](#)
- [Audio: Caller Hears System Error Message](#)
- [Audio: Prompts Not Played Intermittently, Random Prompts, Random ICM Scripts](#)
- [Audio: Prompts Not Played if SetTransferLabel is Configured](#)
- [Audio: No Ring Tone When Transfer to Unified CCE Agent](#)
- [Audio: Garbled Prompts or Voice](#)
- [Audio: Caller Hears Prompt then Dead Air, Fast Busy, or Pause, then Disconnected](#)
- [Audio: One-way Voice after Agent Transfer](#)
- [Audio: Micro-Application May Not Always Create Correct VoiceXML](#)
- [Audio: Large Number of No Matches for Speech Recognition](#)
- [Audio: Same Prompt Repeats Multiple Times](#)
- [Audio: Cannot Deploy Newly Added Speech Server](#)
- [Audio: SpeechWorks Does Not Work with Unified CVP](#)
- [Audio: Hearing English System Critical Message When Locale Not Set to en-us](#)
- [Audio: Speech and DTMF Keystroke Recognition Take Long Time to Complete](#)
- [Audio: Speech Recognition Does Not Recognize Wide Character String Grammars](#)
- [Audio: Large Number of Invalid Entries for Speech Recognition](#)
- [Audio: DTMF Barge-in Not Detected](#)
- [Audio: Clicking Noise Heard During Scansoft TTS on IP Phones](#)
- ["Failed - Device is using an old Unified CVP version that does not support this operation"](#)

Transfer and Connect

- [Transfer and Connect: Agent Does Consult Transfer to CVP and Completes Consult While Connected to IVR](#)
- [Transfer and Connect: Agent Available and Transfer Does Not Happen](#)
- [Transfer and Connect: Problem with IP Transfer](#)
- [Transfer and Connect: Agent Cannot Transfer Calls to Unified CVP or Another Agent](#)
- [Transfer and Connect: Agent Cannot Perform a Consult Transfer and Conference to a Second Agent](#)
- [Transfer and Connect: Ringtone Video Is Not Visible During Consult Transfer](#)
- [Transfer and Connect: When a Call Is IP Transferred, the Caller Is Disconnected](#)
- [Transfer and Connect: A Call Placed from an Analog Phone on an FXS Port Fails](#)

- [Transfer and Connect: Calls Dropped When a Caller Tries to Invoke Supplementary Services](#)
- [Transfer and Connect: Call is Disconnected during IP Transfer and the Gatekeeper Is Configured](#)
- [Transfer and Connect: Agent Desktop Gets a "Call Failed Due to Network Interruption" Error](#)
- [Transfer and Connect: Call Back For IVR Service Treatment or Subsequent Network Transfer Fails](#)
- [Transfer and Connect: Call Disconnected As Soon As Agent Answers](#)
- [Transfer and Connect: Call Immediately Disconnected and Caller Hears Nothing](#)
- [Transfer and Connect: Agent Goes Ready, Queued Caller Never Delivered to Agent](#)
- [Transfer and Connect: Post-Route Transfers Do Not Work](#)
- [Transfer and Connect: No Ringback on Blind Transfer](#)
- [Transfer and Connect: RONA and Router Requery Not Working as Expected](#)
- [Transfer and Connect: Call Disconnected as Soon as Agent Answers](#)
- [Transfer and Connect: DTMF Tones not Recognized](#)
- [Transfer and Connect: Re-route On No Answer CallDisposition RNA Code 19](#)

Unified Communications Manager

- [Unified Communications Manager: ASP Error Occurs on Unified CM](#)

Unified ICME

- [Unified ICME: Unified ICME Lookup Requests Show 0](#)
- [Unified ICME: Unified ICME Timeout Occurs and No Error Found](#)
- [Unified ICME: Call Receives Default Route Label From Unified ICME](#)
- [Unified ICME: Running Out of ECC Variable Space](#)
- [Unified ICME: VRU Script Returns Incorrect Result](#)
- [Unified ICME: Incorrect Number for Play Data Micro-applications](#)
- [Unified ICME: Caller Is Restarted at Beginning of ICM Script](#)
- [Unified ICME: Numeric data Is not Playing in the Expected Format](#)
- [Unified ICME: Unified ICME Service Control Only Displays H.323 Service After Core Software Install](#)
- [Unified ICME: Error Code 31, 32, 33 Returned to ICM Script](#)
- [Unified ICME: Error Code 9 Returned to ICM Script](#)

Content Services Switch

- [Content Services Switch: Content Services Switch Shows Call Server Out of Service but IVR Service Is up](#)

H.323 Troubleshooting

- [H.323 Troubleshooting: H.323 Service Process Restarts Unexpectedly](#)
- [H.323 Troubleshooting: H.323 Service Out of Service](#)
- [H.323 Troubleshooting: H.323 Service Log Indicates Wrong Number of Licensed IVR Service Ports](#)
- [H.323 Troubleshooting: H.323 Service Must be Registered with Gatekeeper to Perform IP Transfers Error](#)
- [H.323 Troubleshooting: Unexpected Event for the Gatekeeper Registrations Error](#)
- [H.323 Troubleshooting: VBadm Command Fails](#)
- [H.323 SNMP Trap Codes](#)

SIP Troubleshooting

- [SIP Troubleshooting: SIP to SIP Calls Do Not Play Ring Ringback Tone](#)
- [SIP Troubleshooting: Assigning DN Auto Answer Settings for Shared Lines](#)
- [SIP Troubleshooting: SIP Calls Experience Long Delay or Fast Busy](#)
- [SIP Troubleshooting: SIP Calls Receives 500 Internal Server Error "Routing Failed" Event](#)
- [SIP Troubleshooting: SIP Call Receives 489 Bad Event Message](#)
- [SIP Troubleshooting: Back to Back User Agent \(B2BUA\) Sending 503 Server Not Available](#)
- [SIP Troubleshooting: REJECTED WITH 401 - Unauthorized Reason: Q.850:cause=57](#)
- [SIP Troubleshooting: MTP Resource Allocated Even Though MTP is Disabled](#)
- [SIP Troubleshooting: SIP Call Fail on SIP Trunk on Unified CM to Back to Back User Agent](#)
- [SIP Troubleshooting: SIP Call Is Cleared From Unified CVP with Code 127](#)
- [SIP Troubleshooting: Critical Error Audio Is Not Heard on an Abnormal Disconnect SIP Call](#)
- [SIP Troubleshooting: SIP Calls Survivability Script Failing](#)
- [SIP Troubleshooting: 482 Loop Detected Error from CUPS SIP Proxy](#)
- [SIP Troubleshooting: SIP Call Fails with 404 Not Found Error Message](#)
- [SIP Troubleshooting: H.323 Gateway/SIP Call with IVR Service is Terminated with Reason Code: Q.850:Cause=38](#)
- [SIP Troubleshooting: SIP Call Drops When Mobile Agent's Phone \(Remote CTI Port\) is Busy](#)

SNMP Troubleshooting

- [SNMP Troubleshooting: SNMP Notification: authenticationFailure](#)

Installation/Upgrade Troubleshooting

- [Installation Troubleshooting: Increase Size of the Virtual Memory Paging File](#)
- [Installation Troubleshooting: InstallShield Engine Cannot Be Installed](#)
- [Installation Troubleshooting: File in Use Message When Uninstalling](#)
- [Installation Troubleshooting: Error Uninstalling WebSphere Application Server](#)
- [Installation Troubleshooting: Password Issues](#)
- [Installation Troubleshooting: Reporting Password Error During Installation](#)
- [Installation Troubleshooting: Install Radvision Package in Linux](#)
- [Installation Troubleshooting: Dialog Box During Reporting Uninstallation](#)
- [Installation Troubleshooting: Install with Non-US English Region/Locale Settings](#)
- [Installation Troubleshooting: Call Server CPU spikes to 90%-100%](#)
- [Unified CVP: Cannot upgrade to Call Studio 7.0\(2\) if Call Studio 7.0 was installed on an unsupported OS](#)
- [Unified CVP: Installation/Upgrade Troubleshooting: Reporting - failure launching the Informix installer](#)
- [Unified CVP: Installation/Upgrade Troubleshooting: Upgrade fails with ERROR: Unable to set permissions](#)

Gateway Troubleshooting

- [Gateway Troubleshooting: Ringing Stops on IP Phone Calling TDM](#)
- [Gateway Troubleshooting: Gateway Cannot Connect to ASR/TTS Server](#)
- [Gateway Troubleshooting: Pressing Digit 9 Causes No-Match](#)
- [Gateway Troubleshooting: Receiving Bootstrap Warning Error](#)

- [Gateway Troubleshooting: Switch Transfer Is Not Going to the Gateway Defined in the Gatekeeper Zone Prefix Command](#)
- [Gateway Troubleshooting: Undeclared ECMAScript variable audium vxmlLog](#)

Unified Presence Server

- [Unified Presence Server: Installation Keeps Failing in Network Connectivity Validation Page](#)
- [Unified Presence Server: The Install Complains About Hardware Check Failure](#)
- [Unified Presence Server: Call Fails When Transferred to Agent](#)

Operations Console (OAMP)

- [Operations Console \(OAMP\): Unified CVP Operations Console Web Pages do not Render Properly with Internet Explorer 11](#)
- [Operations Console \(OAMP\): CVP Operations Console shows Call Server and VXML Server are ?Not Reachable?](#)
- [Operation Console \(OAMP\): Unified CVP OAMP Login Failure](#)
- [Operations Console \(OAMP\): OAMP Functionality Is Limited](#)
- [Unified CVP: Operation Console \(OAMP\): FireFox Password Manager Utility Causes Confusion](#)
- [Unified CVP: Operation Console \(OAMP\): sqledit.bat throws error, does not start](#)
- [Unified CVP: Operation Console \(OAMP\): Unified CVP OAMP server application shows active in add or remove programs even after the application is completely uninstalled](#)

Cisco Security Agent (CSA)

- [Cisco Security Agent \(CSA\): CSA Agent is Disabled; You Cannot Re-enable It](#)

Support Tools

- [Support Tools: Unable to Login to Support Tools](#)

Backup and Restore

- [Backup and Restore: Reporting Server Purging Daily](#)
- [Backup and Restore: Changing Backup Server Requires Restart](#)
- [Backup and Restore: "Retrying ASR Server. Last tried BACKUP asr-en-US-backup. primary tried:0, backup tried:1" Error](#)

Call Studio

- [Unified CVP: Unified Call Studio: Activating Call Studio License](#)

Courtesy Callback

- [Courtesy Callback: Courtesy Callback is not offered, when the caller disconnects before the Unified CVP system plays the default Good bye message](#)
- [Unified CVP: Courtesy Callback Record Name Beep is not Heard](#)
- [Courtesy callback is not offered, when EWT in the ICM is set more than 30 minutes](#)

System CLI Troubleshooting

- Unified CVP: System CLI: Command takes long time to complete
- Unified CVP: System CLI: Missing data
- Unified CVP: System CLI: System mode takes a long time for initialization on first attempt or system init
- Unified CVP: System CLI: Unable to login

Web Services Manager (WSM) Troubleshooting

- Unified CVP: WSM - Diagnostic Portal API response contains error
- Unified CVP: WSM - Diagnostic Portal API returns partial data
- Unified CVP: WSM - Unable to get any response from WSM
- Unified CVP: WSM - Unable to login WSM user

PGW Troubleshooting

- PGW: DTMF is not recognized
- PGW: Music on hold cannot be heard by caller
- PGW: Blind transfer ringtone cannot be heard
- PGW: Delay in failover causes additional dropped calls

Agent Greeting

- Agent Desktop Does Not Enable Login
- Agent Greeting Enable/Disable Button is Grayed
- Agent Greeting Fails to Play - ICM Router Event ID: 64 EnterpriseAgent PIM Event ID: 27
- Agent Greeting Fails to Play - Agent PIM log has no route request
- Agent Greeting Fails to Play - Agent greeting disabled for agent
- Agent Greeting Fails to Play - CRITICAL: Failed to resolve hostname
- Agent Greeting Fails to Play - EnterpriseAgent PIM Error ID: 41
- Agent Greeting Fails to Play - EnterpriseAgent PIM Error ID: 42
- Agent Greeting Fails to Play - EnterpriseAgent PIM Error ID: 43
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 36
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 38
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 40
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 49
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 52
- Agent Greeting Fails to Play - EnterpriseAgent PIM Event ID: 57
- Agent Greeting Fails to Play - ICM Router Error Code: 63 EnterpriseAgent PIM Event ID: 27
- Agent Greeting Fails to Play - ICM Router Event ID: 637
- Agent Greeting Playback Gets Cut Off
- Agent Greeting Record Application Fails
- Agent Greeting Recording Fails - Check Required Information.exit.no ftp server
- Agent Greeting Recording Fails - FTP Deployment Error.enter
- Agent Greeting Recording Fails - Record Greeting With Confirm.exit.max disconfirmed
- Agent Greeting Recording Fails - Record Greeting With Confirm.exit.max noinput
- Agent Greeting Recording Fails - Record Greeting With Confirm.exit.max nomatch
- Agent Greeting Recording Fails - Script aborts at the RunExternalScript node
- Agent Unable to Record Greeting - ICM Router Event ID: 63, 66 EnterpriseAgent PIM Event ID: 43

- Agent Unable to Record Greeting - ICM Router Event ID: 63, 66 EnterpriseAgent PIM Event ID: 44

Agent Whisper

- Agent Whisper - Call Fails
- Agent Whisper - Poor Caller Ringtone Quality
- Caller Hears Silence Before the Greeting Plays
- Canned AG.ICMS Script Fails to Play VRU Script when the Call needs to be Queued
- Whisper Announcement Fails to Play
- Whisper Announcement Fails to Play - Call.WhisperAnnouncement variable set without
- Whisper Announcement Fails to Play - B2BUA is not configured
- Whisper Announcement Fails to Play - During Transfer Request
- Whisper Announcement Fails to Play - No Default Label Configured
- Whisper Announcement Fails to Play - Whisper Call Setup Failed
- Whisper Announcement Fails to Play - Whisper Prompt Playback Failed

Troubleshooting Tips for Getting Started with CVP

- Troubleshooting Tips for Getting Started with CVP
