

## UCCX Data

<b>Problem Summary</b>	UCCX Data containing "less than " or "greater than" characters fails to save
<b>Error Message</b>	No specific error message but the page where UCCX Data contains "less than " or "greater than" characters fails to save
<b>Possible Cause</b>	A filter has been introduced to prevent XSS attacks and this filter replaces special characters like "<" and ">"
<b>Recommended Action</b>	Make use of data without these characters are they hold special meaning in URLs and need to be replaced to avoid XSS attacks
<b>Release</b>	Release 8.0(1)
<b>Associated CDETS #</b>
