

UCCX Data

Problem Summary	UCCX Data containing "less than " or "greater than" characters fails to save
Error Message	No specific error message but the page where UCCX Data contains "less than " or "greater than" characters fails to save
Possible Cause	A filter has been introduced to prevent XSS attacks and this filter replaces special characters like "<" and ">"
Recommended Action	Make use of data without these characters are they hold special meaning in URLs and need to be replaced to avoid XSS attacks
Release	Release 8.0(1)
