

Unable To Access NTP Server

Problem Summary	UCCX installation fails saying it is not able to access NTP server on node 2
Error Message	Unable to Sync to NTP server on node 1.
Possible Cause	User might have given a wrong NTP server while setting on node 1. (Note , starting NTP service on a windows box and designating it as NTP server might not work).
Recommended Action	User should set correct NTP server on node 1 by logging into CLI and restart node 2 installation.
Release	UCCX 8.0(1)
