

## Unable To Access NTP Server

<b>Problem Summary</b>	UCCX installation fails saying it is not able to access NTP server on node 2
<b>Error Message</b>	Unable to Sync to NTP server on node 1.
<b>Possible Cause</b>	User might have given a wrong NTP server while setting on node 1. ( Note , starting NTP service on a windows box and designating it as NTP server might not work ).
<b>Recommended Action</b>	User should set correct NTP server on node 1 by logging into CLI and restart node 2 installation.
<b>Release</b>	UCCX 8.0(1)
