

Unified CCE Admin does not Display Properly in IE9

Problem Summary	Unified CCE Administration does not display properly/has graphical glitches when viewed in the Internet Explorer 9 (IE9) web browser, but works fine in Mozilla Firefox.
Error Message	N/A
Possible Cause	IE9 Compatibility View settings are not configured correctly.
Recommended Action	1) Using the IE9 web browser, select the Alt key to show the Tools menu. 2) Select Compatibility View Settings from the Tools menu and make sure that the Display Intranet Sites in Compatibility View check box is unchecked.
Release	9.0(1)
Associated CDETS #	None.
