

## Unable to get any response from WSM

<b>Problem Summary</b>	WSM does not respond to any HTTP request.
<b>Error Message</b>	Request timed out.
<b>Possible Cause</b>	WSM service may be down or network is unreachable to the WSM service.
<b>Recommended Action</b>	Check if the WSM service is running. Check the log files in CVP\wsm\Server\Tomcat\logs for any error. Make sure 8111 port is not blocked by firewalls.
<b>Release</b>	8.0(1) and later
<b>Associated CDETS #</b>	None.
