

Incorrect Number for Play Data Micro-applications

Problem Summary	If you enter an integer value that has a max value of 0x7fffffff (2147483647) in the ICM script it does not play the required prompt.
Error Message	33: 10.77.60.174: Apr 20 2007 16:50:43.062 +0530: %CVP_4_0_IVR-3-MICROAPP_FORMAT_ERROR: [VARIABLE_DATA(13)] CALLGUID=0EB8F53B-10000112-69665ACE-0A4D3CAE: [VARIABLE_DATA(13)] A number value is expected in '-1e+006' {VRUScriptName: PD,Number,8 ConfigParam: 9,Y } [id:3016]"
Possible Cause	Large numbers must be used as strings (enclosed in quotes) in ICM scripts used by Play Data Micro-applications.
Recommended Action	If you are using integers that are larger than nine digits, enclose the value in quotation marks, so it will be treated as a string.
Release	Release 7.0(2)
Associated CDETS #	None.
