

## Numeric data Is not Playing in the Expected Format

<b>Problem Summary</b>	Numeric data is not playing in the expected format.
<b>Error Message</b>	None.
<b>Possible Cause</b>	<p>The ICM script might be:</p> <ul style="list-style-type: none"> <li>• Truncating values with leading 0's or 0's after decimals.</li> <li>• Rounding values.</li> </ul>
<b>Recommended Action</b>	<p>Put quotes around numbers in a Script Editor Set node so it is processed as a string. This is especially important if:</p> <ul style="list-style-type: none"> <li>• Leading 0's are present (example: dates).</li> <li>• Trailing 0's are present after a decimal point (example: currency).</li> <li>• The number is very large (example: a number normally expressed through exponential notation).</li> </ul>
<b>Release</b>	Release 7.0(2)
<b>Associated CDETS #</b>	None.
