

Unified ICME Timeout Occurs and No Error Found

Problem Summary	In a NAM/CICM environment, an Unified ICME timeout occurs and there is no indication of an error in the Call Server logs.
Error Message	None.
Possible Cause	If the time to retrieve the first script request (or connect) takes longer than the NAM's remote ICM timeouts, then default routing occurs.
Recommended Action	Locate and correct any network or script delay, or increase the NAM remote ICM timeouts.
Release	Release 7.0(2)
Associated CDETS #	None.
