

Logger Exit

Problem Summary	The logger exits after local time has been stopped for few milliseconds
Error Message	None.
Possible Cause	The SQL server is busy. As a result, during that time no heartbeat response is sent to the Router process.
Recommended Action	Increase the MessageTimeout value under the registry key Logger\CurrentVersion\Configuration\Time\MessageTimeout.
Release	Release 7.5(1) and 8.0
Associated CDETS #	None.
