

## Logger Exit

<b>Problem Summary</b>	The logger exits after local time has been stopped for few milliseconds
<b>Error Message</b>	None.
<b>Possible Cause</b>	The SQL server is busy. As a result, during that time no heartbeat response is sent to the Router process.
<b>Recommended Action</b>	Increase the MessageTimeout value under the registry key Logger\CurrentVersion\Configuration\Time\MessageTimeout.
<b>Release</b>	Release 7.5(1) and 8.0
<b>Associated CDETS #</b>	None.
