

## Logger Initialization Assert

<b>Problem Summary</b>	During Logger initialization, the process asserts with the following message:
<b>Error Message</b>	"Fail: Assertion failed: syncMsg.UpdateKey == g.checksumInfo.updateKey".
<b>Possible Cause</b>	The Config_Message_Log table in the logger database is empty.
<b>Recommended Action</b>	Open icm\install\sysinit.sqlfile. Copy the insert statement for Config_Message_Log table and run the same on the logger database.
<b>Release</b>	Release 7.5(1) and 8.0
<b>Associated CDETS #</b>	None.
