

Upgrade - Registry and Database Backups

Registry Backups	<p>The SOFTWARE\Cisco Systems, Inc. registry backup made by the Installer just before upgrade is located in C:\Temp\UnifiedICM-CCE-CCHRegSave_<date>_<time>.reg.txt.</p> <p>For example, C:\Temp\UnifiedICM-CCE-CCHRegSave_11-30-2009_1422.reg.txt.</p>
Database Backups	<p>The configuration database backup is created by the Installer only if there is enough disk space, and is located in C:\Temp\icm_<database name><schema version>.</p> <p>For example, C:\Temp\icm_sideA127.</p>
Release	8.0(1)
