

Call Start Element Deleted From VXML Server

Problem Summary	Call Start element is deleted from the VXML Server application.
Error Message	None.
Possible Cause	Usually user error.
Recommended Action	Add the new Page Entry element to the call flow, then right-click on it and choose Start Of Call -> Yes . This element is automatically used as the first element - start of call. You can then manually rename it to Call Start.
Release	Release 7.0(2)
Associated CDETS #	None.
