

## VXML Server Fails After CVP 7.0 Upgrade

<b>Problem Summary</b>	The VXML Server application fails following an upgrade to CVP 7.0.
<b>Error Message</b>	None.
<b>Possible Cause</b>	Customer audio files that reside in the .war expansion directory (CVP_HOME/VXMLServer/Tomcat/webapps) are not preserved upon upgrade to CVP 7.0.
<b>Recommended Action</b>	Redeploy custom audio files to the VXML Server, but not to the .war expansion directory because the contents of this directory are not preserved at upgrade time.
<b>Release</b>	Release 7.0(2)
<b>Associated CDETS #</b>	None.
