

Warning: System running on grace period message on admin login

Problem Summary	On admin login, a warning message is displayed "system is running on grace period"
Error Message	Warning: The UCCX system is currently running on a license that has a grace period of 30 days. You have X days remaining.
Possible Cause	UCCX server license MAC is changed because of a change in any of the system parameters.
Recommended Action	Run "show status" command from Unified CCX 8.0 Admin CLI. Check for License MAC in the output. If this License MAC is different than the one given in License file, contact UCCX product marketing to get new License files with correct License MAC.
