

## **"Invalid user name or password" when attempting to log in to WebSetup**

<b>Problem Summary</b>	You expect to be able to log in and you get "Invalid user name or password."
<b>Error Message</b>	"Invalid user name or password".
<b>Possible Cause</b>	Either you are not providing valid Active Directory Domain User credentials or you are not a local machine Administrator, or both.
<b>Recommended Action</b>	Make sure that not only are you logging in as a valid Domain User in the domain, but that you are also a local machine Administrator.
<b>Release</b>	Release 8.0(1)
<b>Associated CDETS #</b>	N/A
